

New Prep Tool for LMR-600 Low Loss Coaxial Cables now available from Times Microwave Systems

Times Microwave Systems has recently introduced the **CST-600** (3192-xxx) **All-In-One Combination Prep Tool** for use with the LMR-600 low loss coaxial cables including standard LMR, DB, FR, PVC, LLPL & -75 and can also be used for the first strip step on LMR-600-Ultraflex. The new tool provides the following features and advantages:

- Combination feature allows preparation of LMR-600 cables for either crimp or clamp connector attachment
- Suitable for use with virtually all LMR-600 connectors
- Provides consistently sharp cut of dielectric for best VSWR performance
- Includes a built-in debur tool eliminating the need for a separate debur tool
- Rugged, lightweight construction

The **CST-600** (3192-xxx) **All-In-One Combination Prep Tool** has a list price of \$98.00 and obsoletes the ST-600-EZ and ST-600C prep tools.

LMR[®] cables are low loss, flexible, non-kinking RF transmission line cables that utilize easy-to-install connectors and are suitable for use as antenna feeders, system jumpers and interconnects.
