## **Times Microwave Systems announces its LP-BTR series of *Times-Protect*<sup>™</sup> Lightning Protection Products for RF Communication Networks**

Times Microwave Systems has introduced the new **LP-BTR** series as part of its ***Times-Protect*<sup>™</sup>** line of innovative RF lightning and surge protection products. These unique devices replace the successful **LP-BTR50** product family. Features incorporated into the new design include:

- Expanded frequency range capability from 20 MHz to 1000 MHz
- Bulkhead mount capability in addition to flange mount
- Weatherization gasket for bulkhead and feed-through installations
- Adjustable flange mounting bracket with captivated screws

The new ***Times-Protect*<sup>™</sup> LP-BTR** series exhibits outstanding power handling capability, exceptional longevity, excellent multi-strike performance, low insertion loss and return loss over the entire operating frequency band and superior surge performance.

**LP-BTR** surge arrestors available are:

LP-BTR-NFF (N female on surge & protected sides) \$65.00 list price

LP-BTR-NMP (N male on protected side & N female on surge side) \$65.00 list price

LP-BTR-NMS (N male on surge side & N female on protected side) \$65.00 list price

### **About Times Microwave Systems**

Times Microwave Systems has over 60 years experience in designing innovative, high-reliability, coaxial cables and assemblies for demanding interconnection problems. An engineering oriented organization, the company specializes in the design and manufacture of high performance flexible and semi-rigid coaxial cable, connectors, and cable assemblies for RF transmission from HF through microwave frequencies as well as surge arrestors for the protection of RF equipment.
